

A Formula for Our Future

The Formula One Range has always been associated with high security and high quality, but as the world changes around us we are forced to adapt to it and contribute to making it a better place for future generations.

Our range of windows, doors and conservatories now not only combine the highest security and function with the style that suits your home, but also reduce the impact on the environment with Energy Rated Windows and the recycling of old frames to ensure that they do not go to landfill.

With a Formula One Range installation, you can be sure that not only are you getting the very best quality but you will also be doing your bit to reduce your impact on the environment, and save on your heating bills too!

Who could ask for more?

Selected products supplied and manufactured by Rapid Frame Limited are certified to the above accreditations.

Please return this brochure to showroom when finished in the interests of saving a tree. Alternatively, please pass to a friend who may find this leaflet interesting. Thanks!

Why we are different

We pride ourselves on the level of service we give to our customers. No job is too big or too small, whether it's replacing a pane of glass or fitting a house full of windows and a conservatory – you will be treated with the same friendly and helpful service.

The Formula One Range product exclusively sold to a selected number of companies with only one in each area. This means that companies who use and install Formula One products are selected for their like minded attitudes towards quality and service that underpins the brand.

We have an after sales team for the unlikely event of a problem so you can be assured that if you do have a slight issue; we have the systems in place to ensure it is rectified quickly and with no disruption to you.

Our forward thinking ideas on energy saving products and reducing our impact on the environment, coupled with our long standing commitment to high quality products at competitive prices set us apart from the rest.
